RX 70 Diesel and LPG Forklift Trucks  
Detailed Photos

---

Air conditioning system ensures a comfortable temperature in any work environment

Joystick 4Plus for comfortable and fatigue-free operation

Narrow profile of protective roof and mast optimises forward visibility

Driver's cab set high for an improved all-round view

Large steps and grip for safe entry and exit

## RX 70 Diesel and LPG Forklift Trucks

### Saving energy has never been easier

---

Safety by nature – particularly stable driving behaviour due to truck's low centre of gravity

Diesel-electric drive with hybrid technology – most efficient forklift in its class: only 2.5 l/h

Excellent visibility, partly due to the narrow mast design

With a lifting capacity of 2.2 to 3.5 tonnes, the RX 70 stands out not just because of its wide field of vision, compact dimensions, and precise and sensitive ease of use – it is also a milestone in sustainability. Thanks to the diesel-electric drive, all RX 70 forklifts are unbeatable for energy-efficiency. That also applies to the multi-award-winning RX 70 hybrid: this hybrid truck obtains its fuel firstly from a diesel tank and secondly from electrical energy stores, the Ultra-Caps.

The electrical current generated when braking is stored in these dual layer capacitors and then made available for driving or lifting procedures. This reduces the fuel consumption by up to 20 per cent – with the same performance! And lower fuel consumption also means lower CO<sub>2</sub> emissions. Discover the new generation of smart energy saving. The RX 70 Hybrid will pay dividends.

## Extensive Equipment

---

### Power

---

- Can lift up to 3.5 tonnes with a load centre of 500 mm
- Move goods effectively: driving speed of up to 21 km/h
- Power meets endurance: maintenance-free rotary current drive
- Perfect power control: electrically adjustable hydraulic pump

### Precision

---

- Select maximum turnover or maximum efficiency: with 5 driving programmes you stay flexible at all times
- Adjustable to suit every task: speed, acceleration and braking can all be individually set
- The latest hydraulic technology for particularly sensitive and precise load handling

### Ergonomics

---

- Comfortable workstation: spacious, comfortable driver's cab that can be individually set up and offering numerous storage compartments
- Welcome home: standard, easy-to-use operating concept across the whole RX product line
- Simple and safe: entry and exit via large non-slip steps that are also visible from above, and grab handles on the protective roof.
- Choose from a range of individual control concepts: mini-lever, Fingertip or Joystick 4Plus
- High degree of driving comfort: comfortable and health-orientated driving due to very low human vibration values

### Compactness

---

- Ideal in the smallest of spaces: compact truck dimensions and very high manoeuvrability allow for optimum use of warehouse space

### Safety

---

- Perfect all-round view: large viewing window, also in the protective roof
- Transport loads safely: narrow mast profile and low tilt cylinder give uninterrupted view of prongs and fork carriage
- Extremely stable: truck has low centre of gravity
- Stays firmly on track: outstanding driving stability when turning

### Environmental Responsibility

---

- Low operating costs: low fuel consumption and long service intervals
- Sustainable: very low CO<sub>2</sub> emissions
- Strong and intelligent: Blue-Q efficiency mode saves up to 10 percent energy at the press of a button with no loss of performance
- Recyclable: over 95 per cent of all installed materials are recyclable
